● Q&A

Q1: What should I do if some of the parts are too tight to assemble or the edges of them are not smooth?

A1: You can polish the cutting points with the sandpaper to enhance its accuracy and polish the burrs to ensure your safety.

Q2: What should I do when the parts are loose after being dismantled several times?

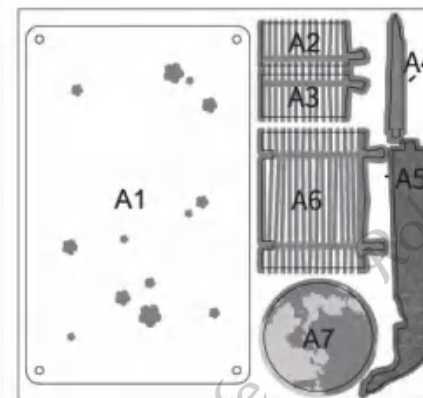

A2: You can dab some glue on inserting positions.

Q3: When I turn on the light but it does not work, what should I do then?

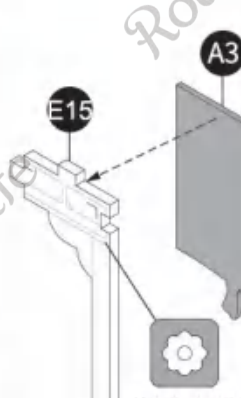

A3: 1. Figure out whether the main switch of cell box is on.
2. Make sure the wires are connected in a proper way, wires of the same color should be connect together.
3. Check whether the touch board aligns with the wooden board, the gap between them will make switch not sensitive or even fail to work.

1

Before assembly, please read above Q&A carefully. Before using the glue, please shake well and remove the inside lid.
