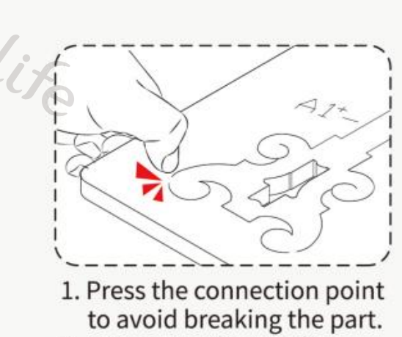
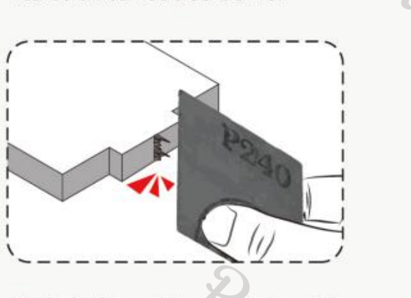
Assembly tips

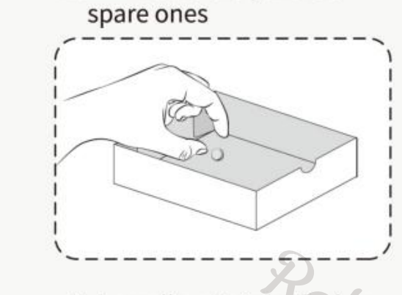
Remove the part by pressing its back to reduce burrs.



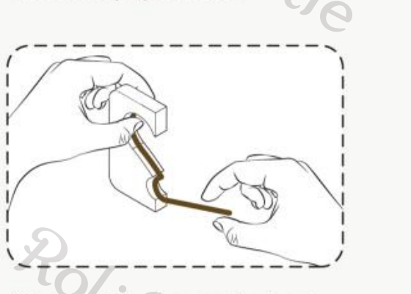
1. Press the connection point to avoid breaking the part.
2. "+" means the part has spare ones



Polish the cutting points with the sandpaper stick



Put small parts into the bag to prevent loss.



The metal wire can be bent using a jig.

For large areas of adhesive, a scraper can be used to spread it evenly.

Tools required

Notice:
Please take precautions when using strong glue/tools.

Tools included:

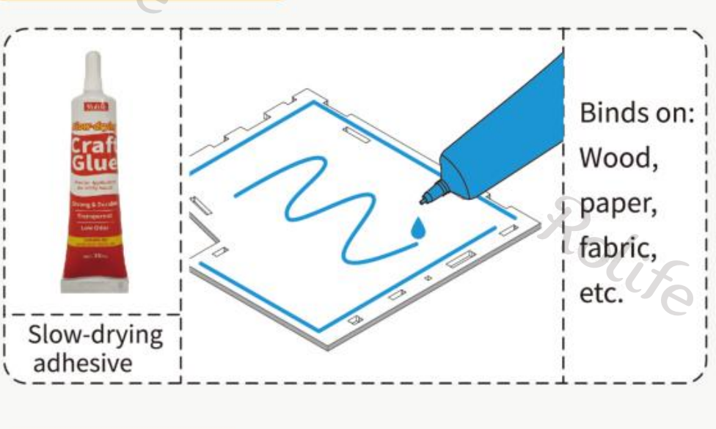
1 Sandpaper 2 Tweezers 3 Screwdriver 4 Double-sided tape 5 Glue

Self-preparation:

6 Scissors 7 Knife

Assembly tips

Adhesive Instructions



Slow-drying adhesive

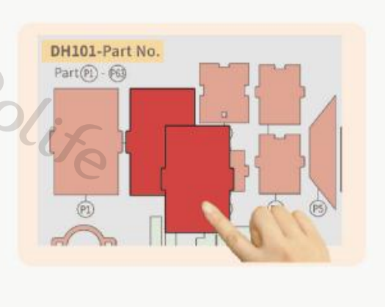
Binds on: Wood, paper, fabric, etc.

Tips of assembling

1. All the dimension in the instruction is shown in millimeter.
2. Only the tool icon appears in the assembly step.
3. Check if the light parts are securely welded.
4. Slow-drying adhesive takes time to dry completely, please self-prepare quick-drying adhesive if needed.

Part number illustration

Refer to the part number paper, find the piece, and compare it with the 1:1 figure. Then assemble it after confirmation. (Only for wooden pieces marked with Ⓟ)



Part list illustration

1. Compare part bags with the part list before assembling to ensure all parts are included.
2. Find the part referring to the part number in the part list, and compare the part with the illustration to ensure it is right before assembling.
