Assembly Tips

Polish the edges with sandpaper if there are burrs on pieces or it's hard to insert.

Put small parts into the box to prevent loss.

Remove the part by pressing its back to reduce burrs.

WARNING

- The product is for people who include and over 14 years old. Children should assemble under the guidance of adults.
- Not suitable for children under 3 years old. Misuse of transformer can cause electrical shock.
- The product contains small parts and electronic components. Adults should guide and supervise children in the correct use of the product to prevent ingestion or choking.
- The product shall only be used with a transformer for product or a power supply for it.
- The product shall be used with the power supply supplied, if the transformer is supplied with the product.
- The transformer or power supply is not a toy or model.
- The power supply used with the electric toy shall be regularly examined for damage to the supply cord, plug, enclosure or other parts, and in the event of damage, it shall not be used until the damage has been repaired.
- Do not connect the wire to output socket.
- The product is not to be connected to more than the recommended number of power supplies.
- This product is only to be connected to equipment of Class II.
- The instruction must be retained since it contains important information.

ATTENTION

- Please read the instruction carefully to assure that all parts are intact before assembling. The mating ends and terminals must not be mismatched.
- Assemble electronic components correctly. Test if the circuits work properly after installation.
- Please keep the product away from fire or any place that may cause damage.
- Some auxiliary tools are required to assemble our products. Please choose reasonably to avoid injury.
- Please don't clean this product with chemical cleaners: alcohol, ammonia water, glass cleaner, etc.
- Please clean the product with a clean soft cloth, and sand the board burr lightly with sandpaper.
- Please keep the instruction book for later reference.
- This product requires a Type-C power cable, which must be provided by yourself (Input: 5V 500mA).

FAQs

Q1: What if there are burrs on the edges of parts or it's hard to insert?

A1: Polish the joints with sandpaper to enhance assembling accuracy, and polish the burrs to ensure safety.

Q2: What if it's hard to connect the light strip to the circuit board?

A2: Turn over the base with the tram on the table. Insert the light strip terminal and put the tram in the base grooves.
